			ART UNIT 2144	PAPER NUMBER
			MAIL DATE 01/31/2008	DELIVERY MODE PAPER

**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

**Advisory Action  
Before the Filing of an Appeal Brief**

Application No.

10/668,260

Applicant(s)

OOKI ET AL.

Examiner

Greg Bengzon

Art Unit

2144

**--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

THE REPLY FILED 08 January 2008 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☐ The period for reply expires \_\_\_\_\_ months from the mailing date of the final rejection.  
b) ☒ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.  
Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**NOTICE OF APPEAL**

2. ☐ The Notice of Appeal was filed on \_\_\_\_\_. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

**AMENDMENTS**

3. ☐ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because  
(a) ☐ They raise new issues that would require further consideration and/or search (see NOTE below);  
(b) ☐ They raise the issue of new matter (see NOTE below);  
(c) ☐ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or  
(d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: \_\_\_\_\_. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).  
5. ☐ Applicant's reply has overcome the following rejection(s): \_\_\_\_\_.  
6. ☐ Newly proposed or amended claim(s) \_\_\_\_\_ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).  
7. ☒ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☒ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.

The status of the claim(s) is (or will be) as follows:

Claim(s) allowed: none.

Claim(s) objected to: none.

Claim(s) rejected: 1, 7 and 9-17.

Claim(s) withdrawn from consideration: none.

**AFFIDAVIT OR OTHER EVIDENCE**

8. ☐ The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).  
9. ☐ The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).  
10. ☐ The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

**REQUEST FOR RECONSIDERATION/OTHER**

11. ☒ The request for reconsideration has been considered but does NOT place the application in condition for allowance because:  
See attached Sheets.  
12. ☐ Note the attached Information Disclosure Statement(s). (PTO/SB/08) Paper No.(s) \_\_\_\_\_.  
13. ☐ Other: \_\_\_\_\_.

**Response to Arguments**

Applicant's arguments filed 01/08/2008 have been fully considered but they are not persuasive.

The Applicant presents the following argument(s) *[in italics]*:

*[The prior art]... discloses nothing, whatsoever, of or toward charging a plurality users, in any arrangement, system or method, according to the ratio of each user's recorded bandwidth use to the total of their recorded bandwidth usage.*

The Examiner respectfully disagrees with the Applicant.

Moskowitz disclosed a convenience premium for greater bandwidth allocation (Moskowitz-Paragraph 78, *'higher demands for bandwidth'*) and also a need to prevent bandwidth hoarding (Moskowitz-Paragraph 86, *'Some mechanism must be in place to prevent attacks on the system, by a party, who, in effect, tries to corner the market in bandwidth'*). At the same time Moskowitz disclosed (Moskowitz-Paragraph 86) that *the accounting of the bandwidth used should not exceed the value of bandwidth provided.*

The Examiner notes that at the time of the invention it was well-known in the art that the bandwidth usage is often a component in the price charged to the customer by the operator/service provider. Given this knowledge, it would have been obvious to a person of ordinary skill in the networking art to calculate said convenience premium disclosed by Moskowitz, wherein the communication premium is based on a ratio of the

Art Unit: 2144

recorded communication band usage for the terminal to a total of the recorded communication band usage of all of the plurality of terminals.

The Applicant presents the following argument(s) *[in italics]*:

*As described, the problem with this prior art usage based fee arrangement is that as multiple users increase their usage the sum total of all the fees charged increases, irrespective of the management only paying the same fixed [fees] for the common gateway access... None of the prior art references relied upon, i.e., Moscowitz, Van Horne and Short, teaches, discloses or suggests anything of, or toward the present invention's claimed ratio based fee arrangement that solves this problem.*

The Examiner respectfully disagrees with the Applicant.

Moskowitz disclosed assigning a price for the bandwidth usage (Moskowitz-Paragraph 50) and estimating the bandwidth usage offered to users. (Moskowitz-Paragraph 76)

Furthermore, Moskowitz disclosed (Moskowitz-Paragraph 86) that *the accounting of the bandwidth used should not exceed the value of bandwidth provided*. A person of ordinary skill in the networking art would recognize that Moskowitz is addressing the same issue as presented by the Applicant. With the suggestion by Moskowitz it would be obvious to implement a charging mechanism wherein the sum total of all the fees charged to the user do not exceed the value of the bandwidth provided.
